Which one of you left the daisy chains of peace symbols draped all over Duke's desk?

Thank you

But hey, we got a day and a half of this one! And I got to sleep in for two whole mornings. Too bad

It turns 50 this year.

I thought he'd like to know he's older than peace.

And stew. And to have been around when the first pepperoni pan pizza was invented (by Antonio Pizza, if you believe him.)

Also, he once threatened to go get his walker and whallop Dad with it, but I think I was the only one around when that happened.

Re today: Okay, that was *much* more like it. Not up to speed, really.

But there's something creepy about that many empty desks. It made me think bad morbid thoughts.

Howevah, it's hard to be morbid when Duke hangs a pink paper peace sign around his neck on a chain made of paper clips, and gives Dad the double-finger vee and a perfect deadpan when he comes in the door.

Dad spilled his tea. It was beautiful.

Thank you
